

Dr aslani

Projects:

1. **2007-2008:** Molecular characterization and ribotyping of *Pseudomonas spp* isolated from inpatient of hospitals .Pasteur Institute of Iran.
2. **2007-2008:** Molecular characterization of Shigella spp isolated from diarrheal cases and asymptomatic persons. Pasteur Institute of Iran.
3. **2005-2006:** Prevalence of Diarrhoeal Diseases due to Bacterial Agents in Children less than 5 years old in Ardebil province and their resistance to antimicrobial agents. Pasture Institute of Iran.
4. **2004-2005:** Molecular typing of Shigella spp and E.coli isolated from diarrhea cases and healthy asymptomatic persons by rRNA gene restriction patterns (ribotyping). Pasture Institute of Iran.
5. **2002-2004:** Molecular characterization of Enteropathogenic E.coli isolated from diarrhea and healthy cases. Pasture Institute of Iran.
6. **1998-1999:** Molecular epidemiology of Salmonella enteritidis serotype typhi. Pasture Institute of Iran.
7. **1995-1998:** Preparation and purification of streptolysin O from Beta hemolytic streptolysin A. Pasture Institute of Iran.
8. **1994-1998:** Survey on prevalence of gastroenteritis due to Salmonella, Shigella and Enteropathogenic E.coli in Iran and their resistance to antimicrobial agents. Pasteur Institute of Iran.
9. **1992-1993:** A study on the prevalence rate of Legionella pneumophila in patients with pneumonia in Tehran Hospitals. Pasteur Institute of Iran.

10. **1994-1998:** Survey on prevalence of gastroenteritis due to Salmonella, Shigella and Enteropathogenic E.coli in Iran and their resistance to antimicrobial agents. Pasteur Institute of Iran.
11. **1998-1999:** Molecular epidemiology of Salmonella enteritidis serotype typhi. Pasteur Institute of Iran.
